Explanation of the Articles in the Calendar.

The pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

MOON'S PHASES.—This Table gives the times for the two meridians when the Moon passes the geocentric longitudes of 0° , 90° , 180° , and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this Table are given the times at which twilight begins in the morning and ends in the evening, i. e., the times when the Sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45° . When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following Table.

| Latitude | 42° | 43° | 44° | 45° | 46° | 47° | 48° | 49° | 50° |
|--|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|
| 1st Correction for Degrees..... | $-5' 27''$ | $-3' 43''$ | $-1' 55''$ | $0' 00''$ | $+ 2' 1''$ | $+ 4' 8''$ | $+ 6' 22''$ | $+ 8' 44''$ | $+ 11' 14''$ |
| 2nd Correction for each minute of latitude | $+ 1''.7$ | $+ 1''.8$ | $+ 1''.9$ | $+ 2''.0$ | $+ 2''.1$ | $+ 2''.2$ | $+ 2''.4$ | $+ 2''.5$ | $+ 2''.6$ |

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45° .

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

| | | |
|---|----------------------------------|-------------|
| Thus for latitude $43^{\circ} 20'$...1st correction = $-3' 43''$ | 2nd correction $+ 1.8 \times 20$ | $+ 0' 36''$ |
| " " $47^{\circ} 40'$... " = $+ 4' 8''$ | " " $+ 2.2 \times 40$ | $+ 1' 28''$ |
| " " $45^{\circ} 10'$... " = $+ 0' 0''$ | " " $+ 2.0 \times 10$ | $+ 0' 20''$ |

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45° .

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction for Toronto and Quebec.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

When in the column headed MOON'S RISING OR SETTING, the letters A. M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, and that the Moon does not rise or set (as the case may be) on that day.

The column, SUN ON MERIDIAN, gives the time that a watch should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto, noon.

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for a point in latitude 45° and longitude 4h. 46m. W. They are not corrected for parallax or refraction.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian in the morning from April 10 to October 10. It passes the meridian twice on October 10: and in the afternoon during the rest of the year.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

| Latitude | 42° | 43° | 44° | 45° | 46° | 47° | 48° | 49° | 50° |
|---------------------------------|---------|--------|---------|---------|---------|---------|--------|---------|---------|

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a star, *add* the same number to the time of its meridian passage. Those stars marked (....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

THE YEAR.

The length of the year is strictly expressed by the space of time required for the revolution of the earth round the sun—namely, 365 days, 5 hours, 48 minutes, 49 seconds, and 7 tenths of a second, for to such a nicety has this time been ascertained. But for convenience in reckoning, it has been found necessary to make the year terminate with a day instead of a fraction of one, lumping the fractions together so as to make up a day among themselves. About forty-five years before Christ Julius Cæsar having, by the help of Sosigenes, an Alexandrian philosopher, come to a tolerably clear understanding of the length of the year, decreed that every fourth year should be held to consist of 366 days, for the purpose of absorbing the odd hours. The arrangement he dictated was a rather clumsy one. A day in February, the sixth before the calends of March (*sextilis*), was to be repeated in that fourth year; and each fourth year was thus to be *bissextilis*. It was as if we were to reckon the 23rd of February twice over. Seeing that, in reality, a day every fourth year is too much by 11 minutes, 10 seconds, and 3 tenths of a second, it inevitably followed that the beginning of the year moved onward ahead of the point at which it was in the days of Cæsar; in other words, he naturally fell behind the reckoning. From the time of the Council of Nice, in 325, when the vernal equinox fell correctly on the 21st of March, Pope Gregory found in 1582 that there had been an over-reckoning to the extent of ten days, and

now the vernal equinox fell on the 11th of March. To correct the past error, he decreed that the 5th of October that year should be reckoned as the 15th, and, to keep the year right in future, the overplus being 18 hours, 7 minutes and 10 seconds in a century, he ordered that every centennial year that could not be divided by 4 (170, 1800, 1900, 2100, 2200, &c.) should not be bissextile, as it otherwise would be; thus, in short, dropping the extra day three times every four hundred years. The Gregorian style, as it was called, readily obtained sway in Catholic, but not in Protestant countries. It was not adopted in Britain till the year 1752, by which time the discrepancy between the Julian and Gregorian periods amounted to eleven days. An Act of Parliament was passed, dictating that the 3rd of September that year should be reckoned the 14th, and that three of every four of the centennial years should, as in Pope Gregory's arrangement, not be bissextile or leap-years. It has consequently arisen—1800 not having been a leap-year—that the new and old styles now differ by twelve days, our first of January being equivalent to the 13th old style. In Russia alone, of all Christian countries, the old style still retained; wherefore it becomes necessary for one writing out his country to any foreign correspondent, to set down his date thus : ^{12th} 24th

March, or ^{26th} 9th September; or, it may be, ^{28th} 9th December, 1870.
7th October 9th January, 1871

The fluctuations in the expenses of management and the average cost of each transaction—where not explained by variations in the amount of business and the number of transactions—are mainly attributable to payments in one year for services not wholly chargeable to that year.

The total cost of maintaining the Post Office Savings Bank, including interest allowed to depositors and all expenses of management, averages about $4\frac{1}{2}\%$ per cent. on the average Savings Bank Balance in the hands of the Government.

Eight and one quarter per cent. of the transactions during the past year, or one in every twelve deposits and withdrawals, were by depositors availing themselves of their privilege to deposit and withdraw at pleasure at any Post Office Savings Bank without change of Pass Book. The transactions of this character numbered 12,748 during the year.

COPYRIGHTS IN CANADA.

Copyrights may be secured by any person domiciled in Canada, or any part of the British possessions, or being a citizen of any country having an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart, musical composition, or of any original painting, drawing, design, &c., upon the following conditions:—The books, maps, &c., must be published in Canada; and in the case of a work of art, it must be produced in Canada, either prior to or simultaneously with its production elsewhere. Two copies of books, maps, &c., must be sent to the Minister of Agriculture; and in the case of paintings, statuary, &c., a written description of the same must be furnished. The fee for registering a Copyright is one dollar, and

it runs for twenty-eight years. It may also be renewed for a further term of 14 years upon the same conditions.

An Interim Copyright may be obtained, pending the publication of any literary, scientific or artistic work, by depositing in the Office of the Minister of Agriculture a copy of the title, or a description of such work. The Interim Copyright runs for one month, and the fee is fifty cents. The work, however, must be published inside the time specified, or the author incurs a penalty not exceeding one hundred dollars.

The penalty for infringing a Copyright is the forfeiture of every copy of the work to the owner of the Copyright, and the payment of a fine of not less than ten cents, nor more than one dollar, for every copy found in possession.

COLLEGIATE INSTITUTES AND HIGH SCHOOLS.—Each of the High Schools (which form the intermediate link between the Public Schools and the Universities), is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees are all appointed by the City Council, except where there is only one school in the County. The head master must be a graduate of a British or Colonial University, unless certified and appointed before 18th September, 1895. Besides fees, local rates to the extent of half the government grant must be raised for the master's salary. Every High School with two qualified teachers receives a fixed amount of \$500, and also a certain sum on salaries of teachers, and a small portion on the average attendance of pupils in the prescribed studies. High Schools which have an average attendance of 60 male classical pupils, may be made Collegiate Institutes, and receive \$250 additional grant. An extra grant is provided for masters taking certain meteorological observations and giving scientific knowledge preparatory to military instruction. Pupils attending these schools are prepared for Matriculation in the Universities. There were 83 High Schools and 16 Collegiate Institutes, with 14,000 pupils, in Ontario, in 1882. James A. McLellan, M.A., and J. E. Hodgson, M.A., Inspectors of High Schools.

PUBLIC SCHOOLS.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality. There were 5,200 Public Schools, with 471,500 pupils, in Ontario, in 1882.

EDUCATIONAL MUSEUM.—Connected with the Education Department is a Museum, containing specimens of School apparatus and furniture, a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts. The Museum is freely open to the public from 9 a.m. to 5 p.m.

THE TOTAL NUMBER OF EDUCATIONAL INSTITUTIONS of all kinds reported by the Educational Department as in operation in the Province of Ontario during 1882 was 5,400, attended by 500,000 pupils, and expending upwards of \$4,000,000 in their support.

THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By Revised Statutes of Ontario, c. 138, the Benchers theretofore appointed, from time to time, by their own body, are made, exclusive of *ex-officio* members, elective by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by the ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*—W. B. Howard.

COURTS FOR THE TRIAL OF CONTESTED ELECTIONS—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts, by one of their Judges appointed in that behalf, are invested with special jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term and severally select, by a majority of votes, a Judge of their respective Courts to be placed on the rota for the trial of election petitions. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

COUNTY COURTS—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed \$200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to \$100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to the Court of Appeal of Ontario.

COUNTY COURT SITTINGS AND COURT OF GENERAL SESSIONS.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said Court is held four times commencing on the first Tuesday in December and March and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions may, with their own consent, and subject to the provisions of the Act in that behalf be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by the said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists, being equivalent to the Courts held by Revising Barristers in England.

INSOLVENT DEBTORS' COURTS.—These Courts, which had reference to traders only, were regulated by the Act known as the "Insolvent Act of 1875," which consolidated and assimilated the practice in Bankruptcy and Insolvency in the several Provinces of the Dominion. The County Judges in the several Counties presided, and official assignees were nominated by the Governor in Council, and were officers of the Court having jurisdiction in the County or District for which they were appointed. And appeals lay to the Court of Appeal of Ontario. This Statute has now been repealed, and the Courts and Assignees are only continuing to wind up pending cases.

SURROGATE COURTS—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the

granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart.

DIVISION C. URTS. for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract where the balance claimed is over \$100 and under \$200 when the amount is ascertained by the signature of the defendant, subject to an appeal to the Court of Appeal, and to \$100 in other cases; but the sums of the account to be gone into cannot exceed \$400; injuries or torts; personal chattels amounting to \$50; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

THE ÆTNA LIFE INSURANCE COMPANY is so well and so favorably known throughout the United States and Canada as a most reliable institution—its very name being "familiar as household words"—that it seems hardly necessary it should make reference to any one as to its excellent standing, financial or otherwise. However, for the sake of some who, though insurable, may not have the necessary time to investigate for themselves, and, therefore, yet remain unprotected by an ÆTNA Policy, the above Board of Reference has been formed out of a list of over 3,000 Ontario policy-holders.

Some of these gentlemen have been insured many years in the Company, and have recently added largely to the amount. Others have carefully examined the merits of the ÆTNA and taken the largest Policy which it can be induced to grant upon any one life. Most of them are Directors or Presidents of other financial and business corporations in their respective localities, and command public confidence.

The fact of these well-known leading business men holding upwards of \$130,000,00 of ÆTNA POLICIES upon their own lives, besides nearly as much more held in the firms they represent, furnishes a strong testimonial to the excellence of the Company. We confidently refer those unacquainted with the ÆTNA to any of the gentlemen named above upon its "ONTARIO BOARD OF REFERENCE."

THE MOST
PERFECT SUBSTITUTE
FOR MOTHER'S MILK.

The Highest Amount of Nourishment in the Most Digestible and Convenient Form.

THE ONLY FOOD SPECIALLY PREPARED FOR INFANTS.

"The Adult CANNOT thrive on the Milk provided for the Infant, while the food adapted for Adults MUST be too strong for Babies."

Abounding in FLESH-FORMING and BONE-FORMING substances, this FOOD perfectly fulfils its object, whereas other so-called Foods, such as Corn Flours, being entirely devoid of nourishing properties, induce a rickety and idiotic condition. It is also carefully freed from the ground husks of the wheat, which cause irritation of the bowels, diarrhoea, &c.

CAUTION.—A Genuine Food should not contain an excess of Sugar, NOR BE TOO PALPABLY SWEET. Such Foods may be palatable, but they are also pernicious. For this reason so-called Milk Foods, Condensed Milks, &c., are prejudicial to the health of Infants, from the large proportion of beet sugar they contain, rendering them utterly unlike the article they are supposed to represent, viz., MOTHER'S MILK.

Spasmodic Asthma, as well as the milder forms of the disease, and other complaints attended with short and difficult breathing, loss of rest, &c., quickly yield to the soothing influence of the fumes of Datura Tatula, and painful paroxysms are either averted or quickly subdued by its use in either of the following forms:

Cigars and Cigarettes, Boxes, 3s., 8s., 15s. Pastilles and Powder (for Non-Smoker's use)—Boxes, 2s. 6d., 5s., 10s. For use as Tobacco—Tins, 2s. 6d., 5s., 10s., 18s.

THE SPECIAL NUTRIMENT—PANCREATIC EMULSION IN CONSUMPTION.

Loss of Weight, Loss of Power to Digest and Assimilate
Food, and especially Fat.

"FAT IS ONE OF THE MOST ESSENTIAL ELEMENTS OF HEALTH."

Dr. DOBELL on Loss of Weight, Lung Disease, &c.

PANCREATIC EMULSION of Solid Fat "supplies the system with what it most wants, a large amount of nourishment with the least amount of digestive labour, and in a form most easily assimilated."

PANCREATIC EMULSION has been in extensive use for the last 20 years at the ROYAL HOSPITAL for DISEASES of the CHEST, LONDON, and also at many similar Public Institutions in London and the Country, as well as in private practice in all parts of the world.

"From 1863 to 1872, at the ROYAL HOSPITAL alone, I prescribed the Emulsion in more than 6,000 cases. Happily, to my own experience may now be added that of thousands of my professional brethren in different parts of the world, by whom Pancreatic Emulsion and Pancreature are daily prescribed and from whom I constantly receive testimony of their value."—DR. DOBELL, *Senior Physician, Royal Hospital, &c.*

"We have lately seen a young lady who has been taking PANCREATIC EMULSION for months, and while doing so she has been changed from a thin, nervous, desponding creature, into a plump, tolerably robust and cheerful woman."—*Dublin Quarterly Journal of Medical Science.*

"Considering how largely PANCREATIC EMULSION is now used in the wasting diseases of adults, it is not surprising that scarcely a week passes but general practitioners relate cases of its success in the wasting of delicate children. Certainly, of all the satisfactory effects of PANCREATIC EMULSION, none equal the almost magical recoveries of some of these children."—*The Practitioner, London.*

This Association Merits the Confidence that the Public is reposing in it from the FACT :

That the **SECURITY** offered to Policy Holders is **UNSURPASSED** by any Company doing business in Canada.

That it has **NO SCHEMES** of Insurance, but the *well-established lines*, hence the policy holders cannot be misled as to their contracts.

That its **STATEMENTS TO THE PUBLIC** can be readily understood, its cash statement showing every item of income and how expended.

That its **POSITION IS ASCERTAINED ANNUALLY** from a detailed valuation in which every item of Liability is included.

That its **PROGRESS HAS BEEN UNEXAMPLED** in the history of Insurance in Canada.

That its policies are **INDISPUTABLE** after three years and **NON-FORFEITABLE** after two years existence.

That its **PROFITS ARE DISTRIBUTED** upon an *equitable* basis. The profits to one class of policy holders are **NOT LESSENED** to give **LARGER PROFITS** to any other class, which affords **SUPERIOR ADVANTAGES** over the **UNIFORM BONUS PLAN** of distribution.
